0945 - 1400

0945-1000	Arrival, Meet and Greet
1000-1015	**Welcome & Opening Remarks: Mr Sameer Kochhar,** Chairman, SKOCH Group
1015-1100	**Session 1: Final Frameworks for CDR & Gaming**
	– Final Framework for Corporate Digital Responsibility
	– Final Framework for Digital Gaming
1100-1130	**Session 2: Proposed Responsibility Frameworks for AI**
1130-1340	**Session 3: Discussing Cloud, AI & Languages**
	– Comprehensive Economic Impact Parametres for Cloud, Data Science & Analytics
	– Smoother Transition to AI & Local Languages
	– Monetisation of Digital Assets Including Deployment of Data Science & Data Analytics

Background

Cloud has historically been sold with the benefit statements of affordability, scalability and security. Over a period of time, organisations have realised that a switch to cloud may end up increasing IT costs. This then creates a problem to justify the use of cloud to the C-Suite. A Comprehensive Economic Impact looks at organisation-wide benefits that may include:

- Organisation wide impact
- Addressing newer markets and customers
- Better ESG impact
- Smoother transition to AI and Local Languages
- Monetisation of Digital Assets, including deployment of Data Science and Data Analytics

1340-1400	**Session 4: Discussing Mental Health**
	– Framework for Digital Mental Health

OP Jindal Global University International Academy
Mezzanine Floor, Taj Mahal Hotel, New Delhi

15th June, 2024 | 09:45 - 14:00
